National Republican Platform. The National Union Republican party of The National Union Republican party of the United states assembled in National Convention in the City of Chicago on the 20th day of May, 1883, make the following declaration of principles:

1. We congratulate the country on the assured success of the reconstruction policy of Coogress as evinced by the adoption in a majority of the States intely in rebellion of Constitutions securing equal civil and political rights to all, and regard it as the duty of the Government to sustain these Constitutions and prevent the people of such States from being remitted to a state of anarchy or military rule.

2. The guarantee by Congress of equal suffrage to all loyal men in the South was demanded by every consideration of public safety, of gratitude and of justice, and must be maintained, while the question of suffrage in ail the loyal States properly belongs to the people of those States.

frage in all the loyal States properly belongs to the people of those States.

3. We denounce all forms of repudiation as a national crime, and national nonor requires the payment of the public indebtedness in the utmost good faith to our creditors at home and abroad, not only according to the letter, but the spirit of the laws under which it was contracted. openly belong the letter, but the spirit of the laws under which it was contracted.

4. It is due to the labor of the nation that taxation snould be equalized and reduced as rapidly as national faith will permit.

5. The national cebt, contracted as it has been for the preservation of the Union for sil time to come, should be extended over a fair period for redemption, and it is the duty of Congress to teduce the rate of interest thereon whenever it can honesily be done.

6. That the best policy to diminish our ourden of debt is so to improve our credit that capitalists will seek to lend us money at lower rates of interests toam we now pay, and must continue to pay, so long as repudiation, partial or total, open or covert, is threatened or suspected.

or suspected.

7. The Government of the United States should be administered with the strictest economy. The corruptions which have been so shamefully nursed and fostered by Andrew Johnson, call loudly for radical rebeen so snamerally narsed and lostered by Andrew Johnson, call loudly for radical reform.

8. We profoundly deplore the untimely and tragic death of Abraham Lincoln, and regret the accession of Andrew Johnson to the Presidency, who has acted treacherously to the people who elected him and the cause he was pledged to support; has usuryed high legislative and hadrial innotions, has reflected to the control of the legislative and hadrial innotions. The results are supported to the control of the laws; has employed his executive power to render inscente the lives, property, peace, liberty and life of the clitzen; has abused the pardoning power; has denounced the National Legislature as unconstitutional; has persistently and habitually resisted by every means in his power, every proper attempt at the reconstruction of the States lately in rebellion; has perverted the public patronage into an engine of wholesale corruption, and has been justly impeached for high crimes and misdemeanors, and properly pronounced guilty thereof by the voices of thirty-five Senators.

guilty thereof by the votes of thirty-five senators.

9. The doctrine of Great Britain and other Enropean Powers, that because a man is once a subject he is always so, must be resisted at every hazard by the United States as a relic of the feudal times, not authorized by the law of nations, and at war with our national honor and independence. Nathralized citizens are suntitled to be protected in all their rights of citizenship, as toough they were naive born. No citizen of the United States, maive or naturalized, must be liable to arrest or imprisonment by any foreign Power for actione or words speken in this country; acts of the deventuent to interfere in the behalf.

The Cooking Miracle of the Age!

FOWL, MEATS, CAEBAGE, ONIONS, POTATOES, PUDDINGS BREAD, &c., &c., All cooked together without the slightest exchange of flavor CHEAP SIMPLE: ECONOMICAL This wonderful invention is attracting wide-spread attention. It is a simple device; made of tin, conprising three sections, which can be used together or separately. The water which steams the food is rapidly distilled into a delicious soup. The 'Miracle' is seen in the placing in one section—fowls or meats, together with cabbage, onlone, turnips, potatoes, &c., &c., and steaming two or three kinds of puddings at the same time—without the elightest change of flavor. It is a philosophical result which astonishes al, and has given the decemer a popularity ear afford to be without it. It will popy for itself in a very short time.
